

Product information LEDM FLEXISTRIP

TK: 10131096

Luminaire type

Flexible LED strip with Low power LEDs.

Applications

For prestigious lighting of offices, banks, hotels, restaurants, corridors, foyers, and sales, exhibition and conference rooms, as well as residential areas.

Suitable for cove lighting application.

Degree of protection	IP65
LOR	1,00

Mounting methods

Adhesive tape for easy mounting.

Flexible & cuttable LED module Strips after every SEU with 50mm length.

Continuous light without shadows.

Optical system

120°degree beam pattern - LEDs on highly flexible strip with adhesive back.

LED system

Flexible LED Strip mounted with SMD2835 120 leds per meter. 24 V DC Operation,

Light output 650 lumen per meter with Efficacy more than 60 lm/W

Available Color temperature of 2700K, 3000K, 4000K,

Connected load 10 Watts per meter, Colour rendering index Ra > 80,

Service life 50000 operating hours.

Electrical version

Separate supply unit/operating driver switchable suitable to drive up to 25 meter LED Strip with Input power 230V AC supply and output power supply on 24Volts DC.

Luminaire body

The PCB is coated by High performance silicon gel at one side, and with adhesive tape stucked at the other side. Suitable for cove lighting application.
