Products used

Faciella

Highlighting objects, surfaces and buildings – with Faciella LED the path to perfect light was never as simple. Completely different lighting tasks can be solved with a uniform design. The high-performance and energy-efficient projector is available in several construction sizes and with various luminous flux packages and beam angles for flexible use. The manually adjustable inclination angle simplifies precise targeting of the projector.

Skeo Q

The Skeo Q LED family includes square wall and ceiling luminaires, spotlights and bollard luminaires. During daylight the purist, modern shape blends harmoniously into its surroundings and sets attractive accents. At night the flexible family of luminaires displays paths and facades using high quality, energy-efficient light adapted perfectly to the framework conditions.

Inplana LED downlight ceiling cutout Ø 215/300/425 mm

Inplana and Onplana LED downlights are the optimum lighting solution for nearly all office applications. Thanks to their modern, minimalist design these flat downlights blend harmoniously into all styles of architecture and emit planar, glare-free light when mounted on walls and ceilings.

Quira

Quira LED – the powerful recessed luminaire that scores with two recessing sizes. Quira LED can be swivelled in up to 15° while remaining flush with the ceiling. For vertical illumination, it can be swivelled out up to 70°. Available with standard white light colours and an Active LED module. This enables the precise adjustment of the light colour regarding intensity and colour temperature. There is a choice of three special light colours for the fresh goods area. Maximum power is selectable with lumen packages from 2,000 to 5,000 lm, while five different 3-D faceted reflectors provide pinpoint illumination. With Quira LED, smart light management can be implemented with a control line or wirelessly for low-installation modernisation. Quira LED is a product by our retail specialist Oktalite. With leading-technology products and a consistent focus on smart, networking-capable solutions, TRILUX is bringing the future of lighting to almost every area of application.
