Polaron IQ LED surface-mounted luminaire

The basis element of the Polaron IQ LED family is a filigree, round light profile supplying maximum planning flexibility: Its diversity enables countless combinations in the series – meaning that light and luminaire design can be perfectly modified to the application. The custom-designed luminaire is installed without any effort thanks to a clever fixing concept.

Solvan Flow C LED recessed luminaire

Everything is possible, from single luminaires as recessed, surface-mounted and suspended versions to continuous lines with integrated emergency light function.
