## PROJECT DETAILS

### Project images

## Products used

### **Bicult LED desktop luminaire**

Bicult LED is the first desktop luminaire in the market to combine direct and indirect light output, thereby ensuring standard-compliant lighting. In addition to freedom of glare, flexibility and individual light settings are the main focus points.

### **Parelia LED suspended luminaire**

The continuous line-capable Parelia LED is perfect for lighting concepts parallel to the building axis. The luminaire can be positioned centrally above the desk without the direct component causing reflected glare. The lateral light line creates an attractive room atmosphere.
