Products used

982... Indirect luminaires
Six variants with the same aim: to bring efficiency and elegance into towns and cities. The luminaires of the 98··· series unite classic design with state-of-the-art LED technology.

Publisca
Die schlanke Leuchtenfamilie Publisca LED verbindet moderne Technologie mit einer unverwechselbar zeitlosen Formsprache. Dank eines cleveren Baukastensystems lassen sich Leuchtenkopf-Design, Lichtpunkthöhe, Lichtfarbe, Abstrahlcharakteristik und Smartness maßgeschneidert an das Projekt anpassen. Auch nachträgliche Umrüstungen sind über zwei optionale Zhaga-Schnittstellen einfach umgesetzt.

LiveLink WiFi/LAN
Optimum, individually adapted light with minimum effort – now achieved thanks to the intuitive and reliable control of all light points. The simply installed, intelligent LiveLink light management system developed by TRILUX together with the sensor manufacturer STEINEL enables the highly simple planning and operation of even complex lighting system controls. The system features especially simple commissioning, deemed one of the major challenges with control systems – LiveLink intuitively guides planners and installers through pre-configured rooms with typical applications. Commissioning and operation is implemented using a graphical user interface on mobile iOS or Android end devices. With LiveLink, TRILUX offers simple and intelligent access to the world of light control.
