Products used

E-Line NEXT LED modular continuous line

Still in the portfolio for the refurbishment and expansion of existing systems: the E-Line Fix continuous line system with trunking that has been tried and tested for many years. This ensures continuity and investment security for our customers and E-Line users - and is what the TRILUX after-sales promise stands for.

Parelia LED suspended luminaire

The continuous line-capable Parelia LED is perfect for lighting concepts parallel to the building axis. The luminaire can be positioned centrally above the desk without the direct component causing reflected glare. The lateral light line creates an attractive room atmosphere.

Finea H LED suspended luminaire

Holistic solutions instead of patchwork: thanks to versatility in photometrics and installation type, even extensive projects can be realised with a single luminaire range. This creates an attractive, harmonious overall impression.
